

**IN-HOUSE TRAINING PROGRAMME ORGANISED UNDER
STAR COLLEGE SCHEME
2019 - 2024**

**In- House Training on “Basic clinical analysis” organised by the
Department of Zoology from 13th to 17th December 2021**

**In- House Training on “Analysis of carbon, nitrogen, phosphorous, zinc
and calcium in soil” organised by the Department of Chemistry from 14th
to 15th December 2021**

**In- House Training on “Estimation of glucose, cholesterol, hemoglobin
and protein in blood sample” organised by the Department of Chemistry
from 14th, 16th to 17th December 2021**

In- House Training on “Digitalization of Campus Flora” organised by the Department of Botany from 14th to 18th December 2021

In- House Training on “Horticultural Techniques” organised by the Department of Botany from 14th to 18th December 2021

In- House Training on “Extraction and Analysis” organised by the Department of Botany from 14th to 18th December 2021

In- House Training on “Histological Techniques” organised by the Department of Botany from 14th to 18th December 2021

In- House Training on “Metal Analysis” organised by the Department of Botany from 14th to 18th December 2021

In- House Training on “Isolation and Separation of DNA” organised by the Department of Zoology from 15th to 18th December 2021

In- House Training on “Basic Skills in Biological Sciences” organised by the Department of Botany from 19th December 2022

In- House Training on “Essential steps in plant microtechniques: From preparation to observation” organised by the Department of Botany from 19th to 20th December 2022

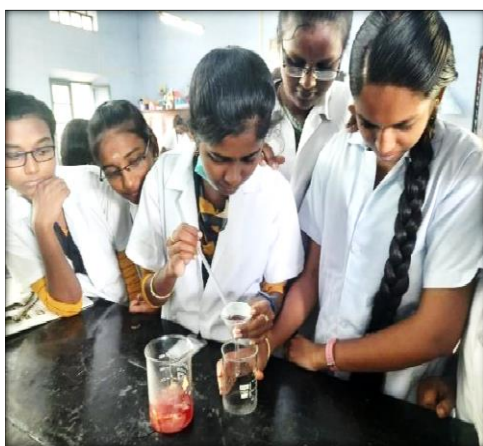

In- House Training on “Determination of BOD, COD and soil quality parameters” organised by the Department of Chemistry on 19th December 2022

In- House Training on “Preparation of biofertilizer” organised by the Department of Botany from 19th to 21st December 2022

In- House Training on “Absolute determination of M and BH and BG- figure of merit for charge” organised by the Department of Physics from 19th to 22nd December 2022

In- House Training on “Preparation of Nanoparticles” organised by the Department of Chemistry on 20th December 2022

In- House Training on “Biotechnology experiments” organised by the Department of Zoology from 20st December 2022

In- House Training on “Extraction and estimation of DNA, Bioinformatics tools – BLAST, FASTA AND RASMOL” organised by the Department of Botany from 20th to 22nd December 2022

In- House Training on “Herbarium Techniques” organised by the Department of Botany on 21st December 2022

In- House Training on “Preparation of Household articles” organised by the Department of Chemistry on 21st December 2022

In- House Training on “Argentometric Titration” organised by the Department of Chemistry 21st December 2022

In- House Training on “Measure the Diameter of the Cell” organised by the Department of Zoology on 21st December 2022

In- House Training on “Bakery products preparation” organised by the Department of Botany from 21st to 22nd December 2022

In- House Training on “Separate blood cells, Measure the heart beat and measure the blood pressure” organised by the Department of Zoology 22nd December 2022

In- House Training on “Conductometric Titration” organised by the Department of Chemistry on 22nd December 2022

In- House Training on “Chromatographic Techniques” organised by the Department of Chemistry on 22nd December 2022

In- House Training on “Millet-based tiffin recipes” organised by the Department of Botany on 28th July 2023

In- House Training on “Unveiling the Economic Potential of Molluscs: From Tide to Trade” organised by the Department of Zoology on 27th August 2024
